Coronavirus (COVID-19)

As funeral service professionals we are called to serve our communities. We are appreciative to Dr. Heather Morrison, Chief Health Officer for Prince Edward Island, and her ongoing communication to the citizens of this province.

It is our hope the Coronavirus (COVID-19) will have a limited impact in our communities and province.

Our professional education and commitment to ongoing training has prepared us to safely deal with infectious agents.

We want our community to know that we will be ready to provide continued compassionate and professional services, when required.

We urge you all to stay calm, safe and informed as we go forward.
